

**Monday 21 October 2024 - Artemia & Aquaculture Research Institute Conference Hall - Urmia University  
Poster Presentations**

<b>Panel 1: Parasitology - 9:00 – 12:30</b>			
<b>No.</b>	<b>Code</b>	<b>Paper Title</b>	<b>Presenter</b>
1	licvmp1124	Medicinal plants as sustainable control agents against helminth parasite infection	Farnaz Malekifard
2	licvmp1125	Medicinal plants as sustainable control agents against <i>Varroa destructor</i> (Acari, Varroidae), an ectoparasitic mite of honeybees ( <i>Apis mellifera</i> )	Farnaz Malekifard
3	licvmp1012	Evaluation of antileishmania effect of <i>Ferula asafoetida</i> extract on <i>Leishmaniaia major</i> and determined it cytotoxicity on mammalian cells	Roghayeh Norouzi
4	licvmp1013	A review on the use of natural and herbal medicines against protoscolices of hydatid cysts	Roghayeh Norouzi
5	licvmp1067	Comparison of anti- <i>Ichthyophthirius multifiliis</i> effects of some medicinal plants with malachite green	Amir Mamipour
6	licvmp1074	The effect of ajowan ( <i>Trachyspermum ammi</i> ) on hydatid cyst protoscolices: An experimental study	Nasser Hajipour
7	licvmp1077	Comparative efficacy of fennel ( <i>Foeniculum vulgare</i> ) and ajwain ( <i>Trachyspermum ammi</i> ) essential oils on mortality of <i>Linguatula serrata</i> nymphs	Nasser Hajipour
8	licvmp1090	Scolicidal activity of <i>Capparis spinosa</i> hydroalcoholic extract on <i>Echinococcus granulosus</i> protoscolices	Amir Hossein Jafari
9	licvmp1091	<i>In vitro</i> scolicidal activity of <i>Syzygium aromaticum</i> hydroalcoholic extract on <i>Echinococcus granulosus</i> protoscolices	Amir Hossein Jafari
10	licvmp1120	A review of anti-parasitic effects of <i>Cichorium intybus</i>	Mahdi Amini
11	licvmp1148	A review on plant extracts for the control of ticks	Laya Shamsi
12	licvmp1150	A review on use of medicinal plants against intestinal worms	Laya Shamsi
13	licvmp1159	Anti-leishmanial effects of herbal monoterpenes	Bagher Amirheidari
14	licvmp1167	<i>In vitro</i> assessment of alliacin (alcoholic extracts of garlic, onion and leek) effect on red mite ( <i>Dermanyssus gallinae</i> )	Mohammad Hossein Alavi
15	licvmp1176	Protoscolicidal effects of crude extract of <i>Nigella sativa</i> and its nanoparticles on hydatid cyst protoscolices <i>in vitro</i>	Kimia Azimi
16	licvmp1185	<i>In vitro</i> investigation of the comparative effects of hydroalcoholic extract of valerian root and its nanoparticles on hydatid cyst protoscolices	Erfan Eftekhari

<b>Panel 2: Immunology - Microbiology - 14:00 – 17:30</b>			
<b>No.</b>	<b>Code</b>	<b>Paper Title</b>	<b>Presenter</b>
1	licvmp1129	Alteration of macrophage function in mice treated with hydroalcoholic extract of sumac	Elham Naji Zavareh
2	licvmp1018	Exploring plant-based antiviral medicines in veterinary practice: efficacy, challenges, and future prospects	Hossein Farhadi
3	licvmp1026	Investigating the antibacterial effect of hydroalcoholic extract of radish leaves and fruit on <i>Salmonella</i> and <i>Bacillus cereus</i> bacteria in laboratory conditions	Samira Ghorbani
4	licvmp1039	A review of antimicrobial effects and chemical composition of <i>Thymus fedtschenkoi</i>	Amirreza Shahabi
5	licvmp1040	A review of antimicrobial activity and chemical composition of essential oil of <i>Nigella sativa</i>	Amirreza Shahabi
6	licvmp1096	Antifungal activity of <i>Teucrium polium</i> and <i>Artemisia aucheri</i> boiss essential oils	Soghra Valizadeh
7	licvmp1097	Evaluation antifungal activity of barberry aqueous extract	Soghra Valizadeh
8	licvmp1117	Evaluation antibacterial and antifungal activity of aqueous extract of saffron	Soghra Valizadeh
9	licvmp1098	Immunomodulatory effects of medicinal herbs in veterinary medicine	Muhammad Sadraei
10	licvmp1115	Investigating the chemical composition of rosemary essential oil of ten populations from Iran and its antibacterial activity on two types of Gram positive and negative bacteria	Omid Nazemi
11	licvmp1145	Investigating the role of quercetin as an antioxidant in degenerative diseases: A review abstract	Mohammad Mahdi Gooran
12	licvmp1174	Investigating the antifungal effect of cinnamon extract and curcumin compared with two standard drugs against <i>Aspergillus flavus</i> and <i>Penicillium citrinum</i>	Mohammad Abbaszadeh
13	licvmp1175	Potent antiproliferative effects of combination of ATRA with gallic acid on human MCF-7 breast cancer cells	Saba Safari
14	licvmp1183	The development and potential of plant-based vaccines in veterinary medicine	Utku Duran
15	licvmp1086	Caffeine as a natural plant compound induces apoptosis in leukemia cancer cells	Ayoob Amiri Zadeh
16	licvmp1088	Encapsulation of hesperidin and evaluation of its antiproliferative effect on murine breast tumor cells	Mohammadreza Ramezani

<b>Panel 3: Basic Sciences - Food Hygiene and Quality Control - 14:00 – 17:30</b>			
<b>No.</b>	<b>Code</b>	<b>Paper Title</b>	<b>Presenter</b>
17	licvmp1126	Evaluation of the antibacterial effects of dill ( <i>Anethum graveolens</i> L.) essential oil in the presence of butylated hydroxyanisole and ethylenediaminetetraacetic acid	Moslem Neyriz-Naghadehi
18	licvmp1127	Evaluation of the antifungal effects of savory ( <i>Satureja hortensis</i> ), dill ( <i>Anethum graveolens</i> ) and cinnamon ( <i>Cinnamomum zeylanicum</i> ) essential oils alone and in combination on <i>Aspergillus flavus</i> and <i>Penicillium chrysogenum</i>	Moslem Neyriz-Naghadehi
19	licvmp1140	A systematic review of the use of plant essential oil for probiotic yoghurt preservation	Negar Alizadeh
20	licvmp1007	Phytochemistry and biological activities of <i>Myrtus communis</i> L. (Myrtaceae)	Shokouh Esmailbegi Kermani
21	licvmp1054	Comparison of chemical composition of <i>Eucalyptus camaldulensis</i> essential oil in Ahvaz and Urmia using gas chromatography-mass spectrometry method	Omid Nazemi
22	licvmp1108	Investigating the effect of green tea extract and cinnamon in different concentrations on the microbial, physicochemical and sensory characteristics of cookies	Mohammad Abedi
23	licvmp1149	Gallic acid in veterinary medicine: A review of application, benefits and dosage in veterinary	Kavan Hasani

24	licvmp1156	Evaluation and comparison of antioxidant effects of different extracts of <i>Vitis vinifera</i> L. var. Ghizil Uzum skin and seeds extracted by ultrasonic and deep eutectic solvents methods	Tooraj Mehdizadeh
25	licvmp1165	Development of zein nanoparticles using natural surfactants for enhanced drug delivery systems	Nima Sharifi
26	licvmp1191	Are cannabinoids effective on cancers?	Aylar Alenabi
27	licvmp1192	The protective effect of <i>Achillea millefolium</i> hydro-alcoholic extract on <i>in vitro</i> fertilization in mature male mice treated with fluoxetine	Gholamreza Najafi

**Tuesday 22 October 2024 - Artemia & Aquaculture Research Institute Conference Hall - Urmia University  
Poster Presentations**

<b>Panel 4: Pathology - Large Animals - 9:00 – 12:30</b>			
<b>No.</b>	<b>Code</b>	<b>Paper Title</b>	<b>Presenter</b>
1	licvmp1139	The effect of the pharmacological effects of sulfasalazine and hydroalcoholic extract of the ivy plant on ulcerative colitis in Wistar rats experimental model	Milad Qaderi
2	licvmp1041	The effects of quercetin against deoxynivalenol induced adverse effects on intestinal epithelial cells (HCT-116)	Sahel Saem Kohneh Shahri
3	licvmp1063	Investigation of the increase in the number of fibroblasts resulting from pulmonary fibrosis following poisoning with paraquat in pregnant rats and the protective effects of the coenzyme Q10	Fatemeh Balazadeh Koucheh
4	licvmp1064	Evaluation of the number of mast cells in the lung tissue of pregnant rats poisoned with paraquat and the protective effects of the coenzyme Q10	Fatemeh Balazadeh Koucheh
5	licvmp1072	Therapeutic effects of ethanol extract of propolis on experimental cutaneous candidiasis in horse	Vahid Najarnezhad
6	licvmp1078	Treatment of experimental candida keratitis with ethanol extract of propolis in goat	Vahid Najarnezhad
7	licvmp1186	Beyond antacids: The promise of herbal therapies for equine gastric ulcers	Masoud Ahmadnejad
8	licvmp1193	The health benefit and application of ginger in animal production	Masoud Maham
9	licvmp1195	A review on therapeutic perspectives of <i>Nigella sativa</i> in animals	Masoud Maham

<b>Panel 5: Surgery - Poultry Diseases - 9:00 – 12:30</b>			
<b>No.</b>	<b>Code</b>	<b>Paper Title</b>	<b>Presenter</b>
10	licvmp1037	The assessment of <i>in vitro</i> timosil drug release through dialysis bag	Shaghayegh Chakhmaghi
11	licvmp1081	Analgesic herbal remedies in small animal surgery	Monir Mohammad Alizadeh
12	licvmp1084	The impacts of a blend of various plants (Bioherbal and Bioherbal Plaus) used as feed supplements on production, egg characteristics, blood biochemistry, and immune parameters of laying hens	Morteza Taghizadeh
13	licvmp1107	Effect of extracts of thyme ( <i>Thymus vulgaris</i> ) on electrocardiographic parameters in experimentally ascitic broilers	Aidin Azizpour
14	licvmp1109	Effect of teucrium ( <i>Teucrium polium</i> L.) and thyme ( <i>Thymus vulgaris</i> L.) on some blood metabolites in broiler chickens	Aidin Azizpour
15	licvmp1112	The effects of yarrow essential oil on <i>Escherichia coli</i> and <i>Lactobacillus microflora</i> in laying hens	Hamed Jafarzadeh
21	licvmp1121	Pennyroyal essential oil effects on <i>Escherichia coli</i> and <i>Lactobacillus microflora</i> in laying hens	Hamed Jafarzadeh
17	licvmp1157	Assessment of the effects of dietary supplementation with alliacin (alcoholic extracts of garlic, onion and leek) on the immune system of broiler chickens (Ross-308)	Mohammad Hossein Alavi
18	licvmp1168	Enhancing poultry health and productivity through lycopene extraction: A green approach using cloud point extraction	Nima Sharifi
19	licvmp1189	Effects of linalool on oxidative stress parameters in a rat model of cutaneous wound healing	Rahim Mohammadi
20	licvmp1190	Histopathological evaluation of the effect of orally Sericin on the bone defect healing in rat	Sara Razzaghi
16	licvmp1113	The antinociceptive effects of thymoquinone on acute postoperative pain: roles of spinal cord oxidative stress, inflammatory and apoptotic mechanisms involved	Seyed Siavash Ghoreishi
22	licvmp1202	Chemical castration using intratesticular injection of carbon dots synthesized from onion ( <i>Allium cepa</i> ) juice in a rat model	Mehdi Behfar

<b>Panel 6: Theriogenology - Small Animals - Aquatics - 14:00 – 17:30</b>			
<b>No.</b>	<b>Code</b>	<b>Paper Title</b>	<b>Presenter</b>
1	licvmp1138	Phytogenics as a safe and promising tool to manage aflatoxicosis in aquatic animals	Nina Nazdar
2	licvmp1142	A review of medicinal plants used for the restoration of reproductive functionality following agricultural toxin-induced reproductive toxicity	Ali Soleimanzadeh
3	licvmp1153	Treatment of metritis in the feline with medicinal plants	Ali Soleimanzadeh
4	licvmp1092	Clinical report of the successful treatment of mebendazole toxicity, with silymarin drug in kittens, referred to Veterinary Hospital of Shahid Chamran University of Ahvaz	Ayda Akbari
5	licvmp1119	A review of the effects of <i>Aloe vera</i> on mastitis in cattle	Sina Zolfaghari
6	licvmp1046	Amelioration of sperm parameter alterations by <i>Malva sylvestris</i> hydroalcoholic extract in adult male mice induced testicular torsion	Mahsa Hallaj Salahpour
7	licvmp1172	Medicinal plants in the treatment of bovine mastitis: Promising alternatives to conventional antibiotics	Nima Mozaffari
8	licvmp1023	Herbal therapy for treatment of neoplasia of the urogenital system in small animals	Maryam Shafie
9	licvmp1203	Immunomodulatory effect of <i>Allium sativum</i> and <i>Echinacea purpurea</i> to increase resistance of rainbow trout against <i>Yersinia ruckeri</i>	Saeid Meshkini
10	licvmp1204	Investigating the effects of hydroalcoholic extracts of barberry ( <i>Berberis vulgaris</i> L.) and sumac ( <i>Rhus coriaria</i> L.) on the activity of antioxidant enzymes in the liver of rainbow trout ( <i>Oncorhynchus mykiss</i> )	Saeid Meshkini
